

FREEWAT National (Ukraine) Workshop

"FREEWAT Platform for the water management: Ukraine's perspective"

DATE September 8, 2017

VENUE: Taras Shevchenko National University of Kyiv, Faculty of Geography building, Room 306
(Academician Hlushkov avenue, 2 KYIV, Ukraine)

TIME: 9.00 – 14.30

The objectives of the workshop:

- To raise awareness about the FREEWAT project among Ukrainian experts and water management
- To demonstrate the possibilities and perspectives of the FREEWAT platform for solving practical and methodological issues of water resources management
- To discuss national programs and instruments for which the FREEWAT approach could be applied
- Implementation of the Water Framework Directive and related EU documents in Ukraine and the role of international research projects like FREEWAT in this process
- To outline further steps in the application of the FREEWAT platform for water and land management issues in Ukraine
